

Sustainable Energy and Electrical Protection

This two hour workshop will examine ways to decrease operating costs in our existing power distribution system, evaluate power for renewable energy and the environmental impact of inefficient power.

Presenter is Andrew Topinka, CPMR, President and Founder of Technical Group Services, Inc., a Power Quality Service Corporation. Mr. Topinka has lectured on Power Quality & Harmonics to National Electrical Contractors Association, New Jersey State Council of Electrical Contractors, NJ Electrical Inspectors, AT&T, Johnson Controls, Electrical Exposition Conference, and many other organizations.

When: Friday, October 27, 2006

Where: New York City Department of Buildings, 280 Broadway (between Chambers and Reade Streets), New York City – 3rd Floor, Room 320

Time: 11:30 am to 1:30 pm

No fee to attend, pre-registration required.

To register for the seminar: 201-777-2416, email joe.porrovecchio@njmeadowlands.gov
