Engineering firms as well as the construction community at large are invited to attend and exhibit at the [Lower Hudson Valley Engineering Expo](#) on Sunday March 22nd in White Plains, NY. At least 40-50 engineering firms and public agencies are expected to participate and present interactive displays, innovations and exhibits focusing on engineering opportunities for the challenges of today's economic uncertainties and international competition for engineering services. This is a great opportunity for small to mid-sized engineering firms to network, collaborate, learn and interact with dozens of other small to large engineering entities, agencies, as well as an opportunity to display their recent accomplishments and look for future project opportunities. Attendance to the EngineeringExpo is free.

Display booths for small engineering and construction firms are still available starting at \$250 as well as prime anchor booths for leading firms. Engineering firms will be able to present their banners, sample of work and recent accomplishments in a display booth which will include electric supply for digital/computer displays. To register for a booth or to sponsor, go to: <http://www.beanengineer.org/REGISTRATION.html>

Among the engineering firms anticipated to be participating this year are: HDR; Arup; Moretrench; O'Brien & Gere Engineers; Skanska USA Inc.; D&B Engineers and Architects, P.C. ; United Water; The Whiting-Turner Cont. Co. ; Divney Tung Schewalbe, LLP; Novartis Pharmaceuticals Corporation; Hazen and Sawyer; Cultec, Inc.; McLaren Engineering Group; City of White Plains Department of Public Works; New York Computer Circle; Philips Research North America ; Frontier-Kemper Constructors, Inc.; Consolidated Edison Company of New York; United States Coast Guard Academy; Think on Hudson; Hunter Roberts Construction Group; Advanced Drainage Systems, Inc.; Regeneron; DOT/Federal Aviation Administration; Orange County Water Authority; NYCDEP-BWS.

Engineering Expo invites all engineers and businesses in engineering, construction and technology to network and join with leading engineering universities to support Engineering Expo by becoming an exhibitor or a Silver to Platinum sponsor of the event. Engineering societies and public agencies are invited to attend at no cost. The overriding effort of this event, is to provide a forum where students can meet with engineering businesses and colleges, to get a real understanding of what engineers do, and to also learn what universities might be of interest to them. Your participation (among others) will help accomplish this effort.

Public attendance to the EngineeringExpo is free.

The Lower Hudson Valley Engineering Expo is a project of the Foundation For Engineering Education, Inc. (FEE). FEE is a NYS Chartered 501(C)(3) Corporation. McLaren Engineering Group is a major benefactor of the event. Donations are tax deductible to the maximum extent allowed by law. A copy of The latest Annual Report may be obtained, upon request, from The Foundation For Engineering Education, Inc., 6 Airline Drive, Albany, NY 12205.
