The Perfect Storm
Challenges Facing 21st Century Sediment Management in the NY/NJ Harbor Watershed

Please join S.A.M.E NJ Post, in collaboration with Passaic River Institute, at Montclair State University on Earth Day – Wednesday, April 22nd to learn and engage about integrated environmental/sediment management applications in the New Jersey / New York regions!

CELEBRATE EARTH DAY!

Breakfast Program Overview: Presentations with follow-up discussions will include speakers and experts on NJ/NY environmental sediment management and restoration programs and projects that are case specific for our complex urban sediment management environment. Eric Stern, Research Associate of Montclair State University, will present an overview of the "The Contaminated Sediment Perfect Storm," focusing on the unprecedented intersection of several mega-site Superfund sediment clean-ups all within the NJ/NY watershed and how that fits into a Regional Sediment Management framework.

Date:	**Wednesday, April 22, 2015**
