• what North Atlantic Industry Day Offers

SAME's North Atlantic Industry Day (formerly Federal/Regional Contracting Opportunities) is an event which brings together architecture, engineering and construction (A/E/C) professionals from both the public and federal sectors to discuss the state of the A/E/C industry, which impacts so many facets of our everyday lives. Whether we are discussing infrastructure, transportation, national security, or the environment, one thing is certain: the business professionals involved in these areas improve our quality of life and enhance our economic vitality.

SAME's North Atlantic Industry Day will feature breakout sessions and keynote presentations where attendees will learn first-hand about market trends, upcoming opportunities, and the latest issues confronting the A/E/C industry. You will also hear anticipated contracting opportunities across all major disciplines from regional agencies in the region for FY2016 and FY2017. Agency representatives will also be available for networking during the evening reception and throughout the event.

• why You Should Attend

Whether you're a professional engineer, architect, contractor, attorney, geologist, construction or project manager, environmental consultant, or other type of A/E/C professional, don't miss out on this rare opportunity. SAME's North Atlantic Industry Day provides an excellent forum to meet your peers, learn about and upcoming project opportunities, and discuss timely issues and challenges the A/E/C industry is facing. Be part of the discussion of what the future holds for the industry!

• how to Make the Most of it as an Exhibitor and/or Sponsor

If you are a service provider in the A/E/C industry or a practitioner, the North Atlantic Industry Day is a great opportunity to build your brand and share your knowledge. To achieve the most visibility, consider exhibiting in the event space or sponsoring an ice breaker activity, breakout session, or networking reception. Depending on the sponsorship level, sponsors are provided complimentary event registrations, signage, and recognition in promotional materials and on site at the event.

More information to come on sponsorship opportunities, confirmed speakers, and more! Contact Committee Chairs Susan Thames at susant@ttienv.com and Kate Petrovich at kpetrovich@lgarch.com with any questions.
