Hirani Group

November 2, 2012

We have all felt the crippling effects brought on by Hurricane Sandy. The devastation and loss of life and property is unprecedented in our regions history. All of us at Hirani Engineering & Land Surveying, P.C. extend our deepest sympathy to the families who have lost love ones and who have suffered damage to homes and property.

With that, our regions buildings, infrastructure, transportation system, power grid, municipal facilities, shoreline, communication network, all has suffered a major blow. In an effort to help begin the process of getting our communities back to normal, Hirani has an expert team of professionals that have the necessary capabilities to respond to and assist with emergency assessments and timely and effective solutions in the following areas:

- Municipal, Agency and Private engineering experience
- Emergency assessment of Infrastructure and building systems affected by the storm
- Structural inspections of buildings, retaining walls, bulkheads and other waterfront structures
- Sheeting and shoring design
- Assessment of flood impacted structures
- Assessment of pavement, drainage facilities, erosion control measures

Our goal is simple, to apply our knowledge and experience to best help our region return to normal. Please do not hesitate in contacting us with your concerns, in the end we are here to help.

Should you have any difficulty reaching our office, we can also be reached at the following direct numbers:
