The Army Goes Rolling Along

Verse:
March along, sing our song, with the Army of the free
Count the brave, count the true, who have fought to victory
We're the Army and proud of our name
We're the Army and proudly proclaim

First Chorus:
First to fight for the right, And to build the Nation's might,
And The Army Goes Rolling Along
Proud of all we have done, Fighting 'til the battle's won,
And the Army Goes Rolling Along.

Refrain:
Then it's Hi! Hi! Hey! The Army's on its way.
Count off the cadence loud and strong
For where e'er we go, You will always know
That The Army Goes Rolling Along.

It is my sincere pleasure to welcome you to the 82nd Annual Society of American Military Engineers Fletcher H. “Bud” Griffis Scholarship Fund Dinner Dance for the Benefit of the New York City SAME Scholarship Fund. The entire Gala Committee and I thank you for your continued support of our scholarship winners and honorees.

The Committee has planned an excellent program and we hope that you have a wonderful time tonight. This evening’s focus is dedicated to our scholarship recipients. As we recognize these students, their achievements, and the academic institutions they attend, we would also like to thank those—in whose names these scholarships are awarded—who had the vision and generosity to support this amazing program and make paying for an education just a little easier.

We are also pleased to recognize our honorees from the military, all of whom have had a tremendous impact in providing for what we hold dear as Americans, our freedom and safety. In addition, we are also pleased to recognize an Owner, two Contractors and three Engineering Consultant honorees tonight who are making our transit system accessible to those with disabilities. While there are many others working on this massive undertaking, tonight we honor some of the first to be working on this program. Tonight, we honor the Metropolitan Transportation Authority for their investment in the massive program to update the transit system for those that have had significantly limited access in the past. While many agree this program is long overdue, this is the 2nd oldest transit system in the United States and the largest system in this hemisphere. The NYC transit system which first opened on October 27, 1904 was designed by a predecessor company of mine called Parsons Brinckerhoff. It is noted that at that time in history the transit owner, designed and constructed facilities without providing access to those with disabilities and this was common practice. Our industry with the help of advocates and legislators have learned a hard lesson since then which is that public infrastructure is for all Americans and not just the ones without disabilities.

On behalf of the New York City Post and the Gala Committee, thank you for being a part of this evening’s event and for your support of the New York City Post and our exceptional scholarship program. Your generous support enables us to continue to offer financial assistance to our future generation of leaders. More than ever before these students are entering an uncertain future and the scholarships you have helped provide tonight will be critical to their continued success.

Thank you again for attending, and enjoy the evening!

Jerry Jannetti, Dinner Dance Chairman
Welcome to the New York City Post’s 82nd Annual Dinner Dance - a time-honored tradition!

The New York City Post of the Society of American Military Engineers (SAME) remains one of the most prominent posts in the nation. Thank you for joining us as we award more than 200 scholarships to students from over 75 colleges and universities across the nation.

At this year’s gala, we celebrate individuals and firms from our industry that have significantly contributed to moving our economy beyond the pandemic that burdens our nation. My congratulations and heartfelt thanks to all the award winners.

The Scholarship Gala serves as the centerpiece of an active Post schedule that includes numerous other dinner meetings and technical sessions, many with other SAME posts or industry societies. Our events provide valuable opportunities for professional development and networking for public and private sector members and colleagues throughout the engineering, architectural, and construction community.

To our dozens of Sustaining Member firms and hundreds of individual members, a special note of thanks for your continuing loyalty. I also send a personal message of gratitude to our Directors, Post Officers, Special Advisors, and Committee Chairs for their dedication, enthusiasm, and time.

Without you and your financial support, the Scholarship Gala, and the many other great events the NYC Post conducts, would not be possible.

Respectfully,

COL Matthew W. Luzzatto, USA, PE,
President, NYC Post
Welcome to the 82nd Annual Dinner Dance benefiting the New York City Post Scholarship Fund. This signature event exemplifies the impact that SAME Posts make in advancing two of the primary goals aligned with the 2025 SAME Strategic Plan: enriching the STEM pipeline for the nation; and developing leaders for the profession. The New York City Post has helped lead the way in supporting the future STEM professionals and leaders of our industry for decades—and the proud tradition of this event highlights how the Post and its members continue to serve as a standard for the Society’s commitment to the future.

The New York City Post Scholarship Fund has provided financial support to more than 6,000 young men and women pursuing engineering, technology, science, and mathematics careers since its establishment in 1955. It is because of the dedication of so many individuals and companies, including those of you here tonight, and under the stewardship of distinguished leaders over the years—including Joseph Markle, Max Urbahn, Bud Griffis, and today, Judy Cooper—that the Post has been able to provide more than $6 million in scholarships. To the 214 scholarship recipients being honored this evening, representing 77 colleges and universities, you are setting out on a journey that will have lasting contributions both to yourself, and to the greater engineering and scientific community. I congratulate you on your successes thus far, and wish you all the best in your future.

This evening’s special honorees, including our Military Guest of Honor, the U.S. Army Corps of Engineers, exemplify the many different technical disciplines within STEM represented among our scholarship recipients, and the great diversity among those who comprise our profession. From environmental permitting to research and development, innovation and discovery, master planning and design, military construction, water resources work, disaster response, and so much more, the Corps of Engineers, working collaboratively with its many partners, lives its mission to engineer solutions for our nation’s toughest challenges.

I also would like to congratulate this evening’s other honorees: Public Owner of the Year – New York City Metropolitan Transportation Authority; Contractors of the Year – Forte and Citnalta; and Designers of the Year – Dewberry, Gannett Fleming, and Urbahn Architects. Thank you for your continued dedication to our nation.

As our Society moves forward in its second century, now 102 years young, you can all Count on Us to develop future leaders and inspire, encourage, and enable the next generation of STEM professionals, while we work together—military, government, industry and academia—to strengthen industry-government engagement, locally and nationally. The future of SAME belongs to you. Be proud of its past. Be inspired by its potential.

Respectfully,

Cindy Lincicome, F.SAME
103rd SAME National President
One of the most profound programs in SAME is the New York City Post’s time-honored tradition of celebrating and supporting America’s future with this superb Annual Scholarship Fundraising Gala. That means not only is the Post continuing to help build future generations of leaders for our profession, but they have already produced generations who serve today. My sincerest congratulations to the New York City Post, especially to the extremely dedicated Scholarship Committee and organizers of this storied event for the impact you continue to have on our nation, our profession and SAME.

Since its inception in 1955, the New York City Post Scholarship Fund has provided more than $5 million in scholarships to nearly 6,000 engineering and architecture students. What an incredible contribution to America’s present and future!

This Annual Gala champions the Scholarship Fund and enables the program to continue to make a difference for youth in our profession. Again this year, over 200 aspiring engineers and architects will be recipients of scholarships thanks to the success and continuity of the Scholarship Fund. From each of us across SAME, thanks for your vision and the tremendous impact of your program.

To this year’s scholarship recipients, congratulations! You join a long list of distinguished engineers and architects who have been recipients of these scholarships in years past and who have gone on to successful careers making a difference for our nation and profession. Most importantly, SAME’s investment in you does not stop tonight! Stay engaged with SAME during your studies and remain connected to the companies and leaders you meet through the Society, so that you may benefit from the mentoring and support that awaits you during your college career and beyond. Our second century is bright because of you and SAME is here to support you, the future engineering leaders of our nation!

Deeds Not Words!

Joseph Schroedel
BG, PE, F. SAME, USA (Ret)
Executive Director
As of October 1, 2022, the market value of our Scholarship Fund is slightly under $3 million.

I am particularly indebted to Vincent Mangiere; Dominick M. Servedio, STV Group, Inc.; and Eric Hirani, Infinite Consulting Corp. for their continued support as members of the Scholarship Fund committee. In addition, we remember the late Ed Schmeltz who was a long-standing member of this committee.

My thanks also go to the members of the Student Relations Committee who deal with over 75 colleges and universities throughout the U.S. to coordinate the selection of 214 students who will receive our scholarships this year. This committee consists of Audrey M. Heyward; Cheryl Hurns, Arcadis; Lilian Tang, STV Group, Inc.; and Ed Wenners, Wenners Engineering Group.

The Scholarship Fund was started by Joe Markle, a distinguished New York construction attorney whose support of the engineering community was legendary. Upon his passing in 1989, Col. Markle was succeeded by Max O. Urbahn, a distinguished architect, and he was followed by our long-serving and beloved leader, Col. (Ret.) F.H. “Bud” Griffis. Bud passed away in the spring of 2021 and he is sorely missed. In Bud’s memory, we are pleased this evening to announce the first recipient of the Fletcher H. “Bud” Griffis Memorial Scholarship to a student at New York University Tandon School of Engineering.

The Scholarship Fund Committee’s focus is to continue to grow the value of the Fund, thereby continuing our history of awarding scholarships to young women and men who will serve as the engineering, architectural, and construction leaders for the next generation. We ask that you consider making a donation of any amount to this most worthy cause.

Respectfully,

Judy DeScenza Cooper

Brigadier General John R. Pippy
PAARNG
Land Component Commander
USACE

Brigadier General John Pippy serves as the Land Component Commander for the Pennsylvania Army National Guard (Fort Indiantown Gap, PA). BG Pippy concurrently serves as the Deputy Chief of Engineers for National Guard Affairs at the U.S. Army Corps of Engineer Headquarters (Washington D.C). Prior to BG Pippy's most recent assignment, he served as the Commander of the 55th Maneuver Enhancement Brigade (Scranton, PA) and Commander of FEMA Region 3 Homeland Response Force. His previous key assignments include Dual Status Commander of OPERATION VAX-PA (Philadelphia, PA), Construction Facilities Maintenance Officer for the Pennsylvania Army National Guard Joint Force Headquarters, Commander of the 876th Brigade Engineer Battalion (Johnstown, PA), Operations Officer for the 2nd Infantry Brigade, 28th ID (Washington, PA), and a deployment to the Middle East from September 2016 to July 2017 as the Engineer Director and Headquarters Battalion Commander of Special Operations Joint Task Force Operation Inherent Resolve. Additionally, he deployed to the Middle East in support of Operation Iraqi Freedom as the Commander of the 332nd EN CO (Kittanning, PA) in March 2003.

BG Pippy served in the Pennsylvania General Assembly for 16 years, retiring in 2012 from the Senate after serving nine years as a State Senator and seven years in the Pennsylvania House of Representatives. Preceding his political career, he worked at U.S. Steel Clairton Coke Works in Clairton, PA. He is currently President and CEO of Adacen Inc. BG Pippy graduated from the United States Military Academy in West Point, NY in 1992 with a Bachelor of Science degree in Environmental Engineering.
Rear Adm. Dean VanderLey is a native of Tacoma, Washington. He is a Calvin College graduate with a Bachelor of Science in Mechanical Engineering and received his commission from the U.S. Navy's Officer Candidate School in Newport, Rhode Island in 1991. He holds a Master of Science in Civil and Environmental Engineering from Stanford University.

After entering the Navy through the nuclear submarine training pipeline, VanderLey served on USS Michigan (SSBN 727), in various division officer positions from 1993-1996. He then served as the lead instructor for the Trident Prospective Commanding Officer course at Trident Training Facility, Bangor, Washington.

VanderLey was selected for transfer to the Civil Engineer Corps (CEC) in 1998. His initial CEC tours included assistant resident officer in charge of construction at Puget Sound Naval Shipyard; assistant public works officer, Naval Air Station Keflavik, Iceland; and operations officer for Naval Mobile Construction Battalion Seven.

His facilities and staff tours include planning officer, Navy Installations Command; executive assistant to the Principal Deputy Assistant Secretary of the Navy (Installations and Environment); public works officer, Naval Station Norfolk; Civil Engineer Corps head detailer; deputy commander for operations, Naval Facilities Engineering Command Atlantic; vice commander, Naval Facilities Engineering Command Atlantic. VanderLey assumed the duties of Commander, Naval Facilities Engineering Systems Command and the 46th Chief of Civil Engineers in August 2022.

His decorations include the Legion of Merit (four awards), Bronze Star, Meritorious Service Medal (six awards), Navy Commendation Medal (three awards), Navy Achievement Medal (four awards), Combat Action Ribbon, Presidential Unit Commendation Ribbon, and Iraq and Afghanistan Campaign Medals.

VanderLey is a Submarine and Seabee Combat Warfare officer, Joint Qualified Officer, member of the Acquisition Professional Community, registered Professional Engineer, and a Certified Energy Manager. VanderLey is proud to have served with teams authorized to wear the Army and Navy Meritorious Unit Commendations, Navy "E" Ribbon, and in receipt of the Peltier Award.
Rear Admiral Carola List
Assistant Commandant for Engineering & Logistics (CG-4)
U.S. Coast Guard

Rear Admiral List assumed the duties of the Assistant Commandant for Engineering and Logistics (CG-4) in April of 2021. As the Coast Guard's “Chief Engineer”, she is responsible for all civil, aeronautical, naval, industrial engineering, including logistics for the service's 25,000 facilities, 2,100 cutters and boats and 200 aircraft. Leading a 5,600 plus workforce assigned across Coast Guard Headquarters, Aviation Logistics Center, Surface Force Logistics Center, Shore Infrastructure Logistics Center, and the Coast Guard Yard, she is responsible for developing, deploying and maintaining the resources necessary to sustain Service capabilities to meet operational requirements in support of the Coast Guard's five fundamental roles of Maritime Safety, Maritime Security, Maritime Mobility, National Defense, and Protection of Natural Resources, executing an annual budget of nearly $1 billion.

Previously, RDML List served as the Executive Assistant to the Deputy Commandant of Mission Support where she coordinated Headquarters and field activities for a 17,000-person mission support organization that delivers the systems and people that enable the Coast Guard to efficiently and effectively perform its operational missions.

A career naval aviator with over 4,800 flight hours, RDML List served as the Commanding Officer of Air Station Sacramento, California standing up the first HC-27J fixed-wing unit for the Coast Guard. Her other operational assignments include Executive Officer Air Station Barbers Point, Hawaii; Engineering Officer Air Station Los Angeles, California; Engineering Officer Air Station Clearwater, Florida; and Air Station San Diego, California.

Her staff assignments include Coast Guard District One; HC-144 Fixed Wing Systems Manager, Aeronautical Engineering Systems Chief; and Chief of the Office of Aeronautical Engineering where she was responsible for leading engineering, maintenance, and logistics efforts for the service. She also has served as Program Manager in the Office of Acquisition Programs, responsible for a $900 million cutter and response boat acquisition program executing the initial deployment of the long range interceptor (LRI) and over the horizon (OTH) boats to fast response cutters (FRC) and national security cutters (NSCs); and the deployment of the response-boat medium (RBM) to the Service.

RDML List was commissioned in the United States Coast Guard in 1991, and attended flight training at Naval Air Station Pensacola, Florida. She is a U.S. Coast Guard designated Aeronautical Engineering Officer, and qualified Aircraft Commander and Instructor Pilot, having flown the MH-65 Dolphin and HH-60J Jayhawk helicopters as well as the HC-27J Spartan fixed wing aircraft.

RDML List holds a Master of Science in National Resource Strategy from the National Defense University, Dwight D. Eisenhower School for National Security and Resource Strategy; a Master of Science in Quality Systems Management; a Bachelor of Arts in Business Administration; is a graduate of the Defense Acquisition University's Senior Acquisition course, and has earned DHS Program Management and Logistics Acquisition certifications.
Rear Admiral Emil P. Wang has been appointed as the 15th Engineer Chief Professional Officer (CPO) of the U.S. Public Health Service (USPHS) Commissioned Corps. As the Engineer CPO, RDML Wang advises the Office of the Surgeon General (OSG) and the U.S. Department of Health and Human Services (HHS) on policy, resourcing, staffing, and leading professional affairs for engineers and architects working in HHS and serving in the UPWSH Commissioned Corps. He is also responsible for advising the OSG on the recruitment, retention, training, readiness, deployment, and career management of Public Health Service engineer officers.

RDML Wang is a Senior Regulatory Counsel and Senior Advisor for Manufacturing and Regulatory Policy at the U.S. Food and Drug Administration (FDA), Center for Tobacco Products (CTP), Office of Compliance and Enforcement. He has extensive experience applying his subject matter expertise in tobacco product compliance and manufacturing to work across FDA Centers and Offices as well as other federal agencies to develop and implement tobacco product regulations, policies, and compliance programs.

Upon his call to active duty in 1993 at the rank of Lieutenant (junior grade), RDML Wang was assigned to FDA, Center for Devices and Radiological Health as a Scientific Reviewer. Throughout his USPHS Commissioned Corps career at FDA, RDML Wang has served in numerous roles of increasing responsibility as an Investigator, Compliance Officer, Case Expert, Branch Chief, Division Director, and his current assignment. He also has experience practicing food and drug law at a private law firm.

RDML Wang has been active in engineer category activities, which includes serving on professional boards and as a senior engineer counselor, two-term voting member on the Engineer Professional Advisory Committee (EPAC), and EPAC Mentoring Subcommittee Chair. He continues to be an active mentor to junior officers. His deployment experience includes Hurricanes Katrina/Rita, the Presidential Inauguration, Coronavirus Disease (COVID) 2019, and Unaccompanied Children Artemis missions. His individual and unit awards include the Outstanding Service Medal, Commendation Medal, PHS Citation, Presidential Unit Citation, COVID-19 Pandemic Campaign Medal, Crisis Response Service Award, Outstanding Unit Citation, and Unit Commendation.

RDML Wang is a graduate of the Johns Hopkins University with a Bachelor of Science in Biomedical Engineering and the University of Maryland School of Law with a Juris Doctor degrees. He maintains licensure as an attorney with the State Bar of California, District of Columbia Bar, and the Maryland State Bar Association. RDML Wang holds a faculty appointment as a Program Coordinator and Senior Lecturer at the Johns Hopkins University, Krieger School of Arts & Sciences, Master of Science programs in Regulatory Science and Food Safety Regulation.
Gannett Fleming is a global infrastructure firm that provides planning, design, technology, and construction management services for a diverse range of markets and disciplines. With more than 2,500 highly qualified individuals across a global network of 60 offices the firm plays an integral part in shaping infrastructure and improving communities in more than 65 countries, specializing in transportation, environmental, water, power, and facility-related projects. Founded in 1915, Gannett Fleming embraces sustainability and innovation in our projects and internal activities, achieving results while being responsible stewards of our environment. Consistently ranked among the nation’s most prestigious engineering firms, Gannett Fleming’s culture of service, ingenuity, and responsiveness empowers us to fulfill our key mission: making clients successful.

Dewberry is a leading, market-facing firm with a proven history of providing professional services to a wide variety of public- and private-sector clients. Recognized for combining unsurpassed commitment to client service with deep subject matter expertise, Dewberry is dedicated to solving clients’ most complex challenges and transforming their communities. Dewberry creates responsible and innovative solutions for those who own, operate, and maintain natural and built environments.

Urbahn Architects is a full-service planning and design firm based in New York City. Since its founding by Max O. Urbahn in 1945, Urbahn Architects has continually provided comprehensive professional planning and design services for organizations and institutions that engage the public. Its substantial portfolio includes projects in the education, healthcare, justice, science, commerce and civic infrastructure sectors. This diverse practice has formed in us the conviction that architecture has the power to manifest ideals, strengthen communities and elevate civic discourse. In addition to an extensive domestic portfolio, Urbahn's work is represented in Asia, Africa, South America, and the Middle East. Urbahn first rose to prominence in the 1960s, winning design commissions for the US space exploration program, national scientific research centers and major hospital facilities. Today, Urbahn continues to undertake challenging and complex assignments, providing services as diverse as master planning, programming, energy audits, management studies, capital planning, construction administration, condition assessments and historic preservation.
Contractors of the Year

Forte Construction Corp.
Forte Construction Corp. is a premier general contractor, performing public work in the New York metropolitan area with various governmental agencies including NYCT, MTA, LIRR, SCA, NYCHA and DASNY. Headquartered in Holbrook, New York, Forte works in all five boroughs of NYC and Nassau and Suffolk counties on Long Island. Forte handles a wide range of projects from interior rehabilitations to large-scale infrastructure construction. In addition to traditional municipal construction jobs, Forte has successfully completed Design-Build projects for the LIRR and NYCT.

Citnalta Construction Corp.
Citnalta Construction Corp. was established in 1974 as a general contracting firm operating primarily in the public sector of Long Island and Queens. Over the past 48 years, Citnalta has grown into a leading design-builder and general contractor in the New York Metropolitan area. Based in Bohemia, New York, Citnalta’s clients include Metropolitan Transportation Authority Construction & Development, New York City Transit Authority, New York City School Construction Authority, Dormitory Authority State of New York, Long Island Rail Road, New York State Department of Design and Construction and New York Office of General Services, among others.
MTA

Not enough transit stations in New York City are accessible. Out of 493 total subway and Staten Island Railway stations, there are currently 136 accessible stations (28 percent). Among all commuter rail stations in our system, 68-percent of Metro-North Railroad (MNR) stations and 86-percent of Long Island Rail Road (LIRR) stations are accessible. As part of its long-term commitment to systemwide accessibility, The Metropolitan Transportation Authority is investing nearly $6 billion in station accessibility in the 2020-2024 Capital Program, to make 70 stations newly ADA accessible and modernize an additional 78 subway elevators.

So far, MTA has retrofit more than 100 New York City subway stations fully or partially and 5 stations on the Staten Island Railway for ADA-accessibility. Many accessible subway stations in Manhattan, the Bronx, Queens, and Brooklyn are equipped with an AutoGate, an entry/exit gate. The AutoGate is available for customers who cannot safely navigate turnstiles, including those who have ambulatory disabilities, use mobility devices, are accompanied by a service animal, or are traveling with a stroller, or other large item (such as a bike or a suitcase). Once in the station, passengers can follow signs with the International Symbol for Accessibility for the accessible path to the platform. MTA is actively working to make more stations accessible.

MTA accessibility extends to bus transit as all buses are wheelchair-accessible in compliance with the Americans with Disabilities Act.

Year in Review

September 2021 - August 2022

As the most difficult part of the COVID Pandemic finally began to wane, the Post began a return to our previous norm of live events after the New Year (2022). Our return to the Harvard Club was welcomed and enjoyed by all who finally saw an end of "cabin fever."

Our membership remained reasonably stable in total numbers, but our industry continues to experience the long-term trend of consolidations within the engineering and construction consultant world. That trend continues to challenge our ability to garner support for those events that are designed to support our SAME-renowned Scholarship Fund.

We were again saddened by the loss of three dear friends and staunch supporters of this Post – Joseph Puzio, Harvey Sands (past Post President and Dinner Dance Chair), and Ed Schmeltz (past Post President and Dinner Dance Chair). They and their families remain in our prayers as we remember their contributions and good cheer.

On the education front, the Post again co-hosted a popular and informative series of "Lunch and Learn" sessions on Resilience and Sustainability. PDH’s were offered to those who participated.

The NYC Post has continued to fulfill the Mission through our Vision as the multi-disciplined integrator of military, public, private, and academic national infrastructure-related capabilities to produce viable solutions for America’s national security.

We are pleased to provide this brief summary and highlights of the Year in Review.

MEETINGS AND PROGRAMS

- On **Wednesday, October 8th, 2021**, the Post kicked off the 2021-2022 season with a Resiliency Mini-Summit, held jointly with the US Green Building Council, Middle Atlantic/New England Region, which provided a day-long overview/review of the Spring, 2021 Resiliency Series. As in those events, PDH’s were offered to participants.

- On **Tuesday, October 28th, 2021**, the Post kicked off the program year with (what would be) its last Virtual Evening Meeting. We were pleased to be joined by Kevin Corbett, President and CEO of NEW JERSEY TRANSIT, who offered an exciting overview of the many initiatives planned and underway.

- On **Saturday, November 6th, 2021**, the Post kicked off its first live event since the onset of the COVID pandemic - its 81st Anniversary Dinner-Dance for the Benefit of the NYC Post SAME Scholarship Fund. The event took place at a brand new venue – the elegant Cipriani South Street Seaport.

- The Post once again served as a co-sponsor to the Metropolitan Engineering Societies Council (MESC) E-Week events, held **Wednesday, February 15th, 2022** as a virtual event. The Guest Speaker was Morris Schwartz, P.E., Chief/Principal Engineer, MTA (retired).

- The New Year (2022) began with the first in the latest series of “Lunch and Learn” presentations held jointly with the USGBC New England/Middle Atlantic Region. Sessions took place on **February 16th, March 16th, April 20th, May 18th, and June 15, 2022.** PDH’s were offered for all sessions.

- The Post invited Mohammed Nasim* and Frank Sacr to return to a Virtual Evening Meeting on Wednesday, March 9th, 2022. *Due to a last-minute schedule issue, Mr. Nasim was unable to attend, but will be rescheduled.
The popular **USMA Cadet Engineering Dinner** returned as a live event on Wednesday, April 20th, 2022 at Eisenhower Hall, West Point. The keynote Speaker was Lt. General Scott A. Spellmon, USA, USACE Chief of Engineers. As in past years, we honored those Cadets from the U.S. Military Academy Class of 2022 entering the Army Engineer Regiment. The AEA once again co-sponsored the event with SAME. Our Young Members Committee, working closely with the West Point Affairs Committee, again turned out a first-class event!

- On **Wednesday, May 4th, 2022**, we returned for the first time since the COVID pandemic, to our regular meeting place – The Harvard Club - where our Post President, COL Matthew Luzzatto, USA, also served as our Guest Speaker – providing a comprehensive USACE briefing.
- The Post closed out the season with our popular **Joint Golf Outing with our sister NJ Post** on **Monday, July 11, 2022**. Both Posts, once again, enjoyed a great day with colleagues and friends on the Picatinny Arsenal golf course, with proceeds benefitting the Scholarship Funds of both posts.

**YOUNG MEMBER COMMITTEE**

Since its inception in 1988, the Young Member Committee (YMC) has organized an array of activities, including professional development seminars, technical presentations, fund raising, and participation in regional and national SAME conferences. The YMC again stepped up to do a great job in managing the Post's involvement in the Cadet Engineering Dinner at West Point, which became a Virtual Event this year. The pandemic limited the usual ice breaker events this season.

Vincent Antes, of WSP, again served as Chair of the Young Member Committee.

**NYC POST – OUR 100TH ANNIVERSARY! 100 YEARS OF EXCELLENCE**

The venerable New York City Post of the Society of American Military Engineers, along with the National Society, celebrates 102 Years in 2022! The Post advances SAME’s objectives by uniting architecture, engineering, construction (A/E/C), facility management and environmental entities and individuals in the public and private sectors to prepare for—and overcome—natural and manmade disasters, and to improve security at home and abroad. At the same time, we continue to celebrate the long path that got us here, with photos taking us back over 60 years – posted for all to enjoy on our Facebook page at https://www.facebook.com/SAMENYCPPOST.

**STRENGTH AND LEADERSHIP AND NETWORKING OPPORTUNITIES**

Since its formation on October 4th, 1920 the New York City Post has been chaired by outstanding leaders in both the military and civilian arms of the STEM professions. Attracting professionals at all levels, it continues as one of the few organizations in the country in which principals of major firms and military/ government executives have an opportunity, on a continuing basis, to network with one another and exchange important ideas and developments.

At its full schedule of meetings, the New York City Post has continually hosted nationally and internationally renowned guest speakers who have shared their expertise and interest in national defense and infrastructure resilience, the advancement of engineering knowledge, and the science of military engineering. These skills have positively influenced an audience beyond the military community, carrying over to a wide range of projects designed to serve our Nation's general population.

**AN ACTIVE MEMBERSHIP FOCUS**

Traditionally, the New York City Post has avidly pursued and encouraged professionals in engineering, architecture, and construction, to become active members of the organization. In recent years, the Post has continued to attempt to expand its membership to contractors, environmental professionals, lawyers, insurers, and marketing and media professionals who specialize in SAME-related activities. Our ongoing efforts to present technical topics of pertinence to today's engineers, as well as the availability of Continuing Education Credits at many Post and Post partner events, to those who attend, make the Post even more relevant to those who wish to remain up to date in STEM.
THE GOLD STANDARD OF SAME SCHOLARSHIP FUNDS—THE NYC POST SAME SCHOLARSHIP FUND, INC.

To inspire students to pursue engineering careers and to begin an early association with SAME, the New York City Post sponsors an extraordinarily successful scholarship program (described in detail within this report). It also supports adjacent student SAME Posts by regularly informing them of activities and encouraging their participation in Post activities. With a principal balance, at press time, of around $3.0 Million, and Scholarships awarded across the U.S., there is no equal among the SAME Posts in scholarship funds.

COMPLIANCE WITH SAME FINANCIAL GUIDELINES

The New York City Post of SAME and its Scholarship Fund comply with all of SAME’s national financial guidelines. Each year, the finances of both entities undergo appropriate audits to assure that sound financial practices are being pursued. Both the Operating Account and the separately incorporated NYC Post SAME Scholarship Fund are independently recognized by the IRS as 501(c)(3) charitable organizations.

EMERGENCY PREPAREDNESS AND INFRASTRUCTURE RESILIENCE COMMITTEE

Our greatest challenge – and opportunity – rests in the Emergency Preparedness and Infrastructure Resilience Committee as it strives to meet and exceed SAME National metrics and guidelines. The continued devastation of recent Hurricanes in Texas, Florida, the Southeast, and Puerto Rico continue to remind us of the need for/ spawn improvements in construction practices and infrastructure resilience in all sectors – residential to commercial to industrial. Suzanne DiGeronimo continues as chair of this Committee, continuing to support relevant efforts to not just recover, but improve resilience so as to prevent future damages. 2022 again featured a series of “Lunch and Learns” to further the goal of educating our wide audience on this most important topic. The events were spearheaded by both Suzanne’s Committee and our Environmental Affairs and Advanced Engineering Technologies Committee (see below) along with our USGBC partner.

ENVIRONMENTAL AFFAIRS AND ADVANCED ENGINEERING TECHNOLOGIES COMMITTEE

The Environmental Affairs Committee again proved to be a highly active Committee, through its cooperation and co-sponsorship of Green Building and Sustainability seminars, field trips, and other events in association with the USGBC North Atlantic/ New England Region. The DoD adoption of LEED standards in base construction provides our members who work with DoD with exposure to these standards through the Committee’s activities, better enabling them to become partners with DoD in this ongoing and long-term effort. See above for 2022’s Lunch and Learn series with USGBC.

Scholarship Endowments

$5,000 Or More “Name Scholarship Endowments”

At a special meeting in December 1963, the Board of Direction of the New York City Post (SAME) passed a resolution providing for “Name Scholarship” endowments. Endowing a “Name Scholarship” required a single gift of $5,000 or more to the Scholarship Fund. Thereafter, for the life of the fund, one of the scholarships awarded each year bore the donor’s name or the name of his designee. As of the end of 1968, 30 such scholarships were endowed. The scholarships, donors and dates are as follows:
